The Geological Society of America Bulletin

Volume 105
Contents

JANUARY

1–2 Bulletin Information

3–17 Eustasy versus subsidence: Lower Paleocene depositional sequences from southern Alabama, eastern Gulf Coastal Plain
Ernest A. Mancini and Berry H. Tew

18–29 A 45,000-yr record of a tropical lowland biota: The land snail fauna from cave sediments at Coco Ree, Jamaica
Glenn A. Goodfriend and Richard M. Mitterer

30–46 Seismic reflection profiling across Tertiary extensional structures in the eastern Amargosa Desert, southern Nevada, Basin and Range province
Thomas M. Brocher, Michael D. Carr, Kenneth F. Fox, Jr., and Patrick E. Hart

47–55 Evaluating major controls on basinal stratigraphy, Pine Valley, Nevada: Implications for syntectonic deposition
Ian Gordon and Paul L. Heller

56–76 Space-time patterns and tectonic controls of Tertiary extension and magmatism in the Great Basin of the western United States
Gary J. Axen, Wanda J. Taylor, and John M. Bartley

77–100 Missoula flood dynamics and magnitudes inferred from sedimentology of slack-water deposits on the Columbia Plateau, Washington
Gary A. Smith

101–115 Hydrologic evolution of drainage basins disturbed by surface mining, central Pennsylvania
John B. Ritter and Thomas W. Gardner

116–126 Southeastern extent of the North American craton in Texas and northern Chihuahua as revealed by Pb isotopes
Eric William James and Christopher D. Henry

FEBRUARY

127–128 Bulletin Information

129–136 Classification of paleosols
Greg H. Mack, W. Calvin James, and H. Curtis Monger

116–126 Southeastern extent of the North American craton in Texas and northern Chihuahua as revealed by Pb isotopes
Eric William James and Christopher D. Henry

FEBRUARY

127–128 Bulletin Information

129–136 Classification of paleosols
Greg H. Mack, W. Calvin James, and H. Curtis Monger

137–161 The landscape geometry and active tectonics of northwest Greece
Geoffrey King, Derek Sturdy, and John Whitney

162–174 Coalification patterns of the Pennsylvanian coal measures in the Appalachian foreland basin, western and south-central Pennsylvania
Etuan Zhang and Alan Davis

175–188 Characterization of lava-flow degradation in the Pisgah and Cima volcanic fields, California, using Landsat Thematic Mapper and AIRSAR data
R. E. Arvidson, M. K. Shepard, E. A. Guinness, S. B. Petroy, J. J. Plaut, D. L. Evans, T. G. Farr, R. Greeley, N. Lancaster, and L. R. Gaddis

189–205 Seismic stratigraphy of the Hawaiian flexural moat
Beth A. Rees, Robert S. Detrick, and Bernard J. Coakley

206–212 Late Wisconsinan–early Holocene riparian paleoenvironment in southeastern Iowa
R. G. Baker, E. A. Bettis III, and D. G. Horton

213–230 Pluton emplacement along an active ductile thrust zone, Piute Mountains, southeastern California: Interaction between deformational and solidification processes
K. E. Karlstrom, C. F. Miller, J. A. Kingsbury, and J. L. Wooden

231–240 U-Pb zircon and monazite ages for the Okanogan Range batholith, Washington: Implications for the magmatic and tectonic evolution of the southern Canadian and northern United States Cordillera
Hugh A. Hurlow and Bruce K. Nelson

241–250 Uranium-series dating of the draining of an aquifer: The example of Wind Cave, Black Hills, South Dakota
D. C. Ford, J. Lundberg, A. N. Palmer, M. V. Palmer, W. Dreybrodt, and H. P. Schwarcz

251–271 New evidence and model on the evolution of the southeast Anatolian orogen
Yücel Yılmaz

272–278 Timing of Proterozoic magmatism in the Gardar Province, southern Greenland
Cassi R. Paslick, Alex N. Halliday, Gareth R. Davies, Klaus Mezger, and B.G.J. Upton

279–283 Large-magnitude Permian shortening and continental-margin tectonics in the southern Cordillera: Discussion and reply
Discussion: *Paul Stone and Calvin H. Stevens*
Reply: *J. Kent Snow and Brian Wernicke*

284 Bulletin Information

MARCH

285 Comment

286 Bulletin Information

287–305 The Cenozoic structural evolution of a fold-and-thrust belt, northeastern Brooks Range, Alaska
Catherine L. Hanks

306–322 Sequence stratigraphy of a carbonate-clastic ramp: The Cincinnatian Series (Upper Ordovician) in its type area
Steven M. Holland

323–344 Collisional successor basins of western China: Impact of tectonic inheritance on sand composition
S. A. Graham, M. S. Hendrix, L. B. Wang, and A. R. Carroll

345–360 Rock-avalanche characteristics in dry climates and the effect of flow into lakes: Insights from mid-Tertiary sedimentary breccias near Artillery Peak, Arizona
John C. Yarnold

361–376 Hydrogeologic control on zeolitic diagenesis of the White River sequence
R. H. Lander and R. L. Hay

377–386 Coastal bench formation at Hanauma Bay, Oahu, Hawaii
Wilfred B. Bryan and Robert S. Stephens

387–398 Relation of thin-skinned thrusting of Colorado Plateau strata in southwestern Utah to Cenozoic magmatism
Olivier R. Merle, George H. Davis, Richard P. Nickelsen, and Pierre A. Gourlay

399–410 Structural history of ophiolite obduction, Bay of Islands, Newfoundland
Günter Suhr and Peter A. Cawood

APRIL

411–422 Extensional and contractional deformation in the Blue Ridge Province, Virginia
Christopher M. Bailey and Carol Simpson

423–436 Strontium-isotope and sequence stratigraphy of the Miocene Kirkwood Formation, southern New Jersey
Peter J. Sugarman, Kenneth G. Miller, James P. Owens, and Mark D. Feigenson

437–446 Age and composition of Archean crystalline rocks from the southern Madison Range, Montana: Implications for crustal evolution in the Wyoming craton
Paul A. Mueller, Robert D. Shuster, Joseph L. Wooden, Eric A. Erslev, and Donald R. Bowes

447–463 Latest Cretaceous basin formation within the Salinian terrane of west-central California
Karen Grove

464–478 Style and magnitude of tectonic shortening normal to the San Andreas fault across Pyramid Hills and Kettleman Hills South Dome, California
Roger B. Bloch, Roland Von Huene, Patrick E. Hart, and Carl M. Wentworth

479–500 A magma-loading model for Barrovian metamorphism in the southeast Coast Plutonic Complex, British Columbia and Washington
Edwin H. Brown and Nicholas W. Walker

501–520 Seismic stratigraphy and tectonic development of Virgin River depression and associated basins, southeastern Nevada and northwestern Arizona
Robert G. Bohannon, John A. Grow, John J. Miller, and Richard H. Black, Jr.

521–536 Analysis of the seismic origin of landslides: Examples from the New Madrid seismic zone
Randall W. Jibson and David K. Keefer

537–546 Evolution of the internal drainage system in the lower part of the ablation area of Storglaciären, Sweden
Regine Hock and Roger LeB. Hooke

547–562 Mid-Cretaceous crustal extension recorded in deep-marine half-graben fill, Cedros Island, Mexico
Douglas P. Smith and Cathy J. Busby

563–567 The Trollheim alluvial fan and facies model revisited: Discussion and reply
Discussion: *Roger LeB. Hooke*
Reply: *Terence C. Blair and John G. McPherson*

568 Bulletin Information

MAY

569–582 Fluid flow along a strike-slip fault at the toe of the Oregon accretionary prism: Implications for the geometry of frontal accretion
Harold J. Tobin, J. Casey Moore, Mary E. MacKay, Daniel L. Orange, and LaVerne D. Kulm

583–602 Epiguruk: A late Quaternary environmental record from northwestern Alaska
Thomas D. Hamilton and Gail M. Ashley

603–617 Extensional tectonics in convergent margin basins: An example from the Salar de Atacama, Chilean Andes
S. Flint, P. Turner, E. J. Jolley, and A. J. Hartley

618–636 Metamorphism of Franciscan tectonostratigraphic assemblage, Pacheco Pass area, east-central Diablo Range, California Coast Ranges
W. G. Ernst

637–656 Evolution of the northern Sierra Nevada metamorphic belt: Petrological, structural, and Ar/Ar constraints
Bradley R. Hacker

657–670 Response and recovery of a subalpine stream following a catastrophic flood
John Pitlick

671–683 Channel networks carved by subglacial water: Observations and reconstruction in the eastern Puget Lowland of Washington
Derek B. Booth and Bernard Hallet

684–694 The importance of blueschist → eclogite dehydration reactions in subducting oceanic crust
Simon M. Peacock

JUNE

695–707 Origin, distribution, and movement of brine in the Permian Basin (U.S.A.): A model for displacement of connate brine
Amos Bein and Alan R. Dutton

708–714 Albitization of plagioclase crystals in the Stevens sandstone (Miocene), San Joaquin Basin, California, and the Frio Formation (Oligocene), Gulf Coast, Texas: A TEM/AEM study
W. G. Hirt, H.-R. Wenk, and J. R. Boles

715–737 Lithospheric buoyancy and collisional orogenesis: Subduction of oceanic plateaus, continental margins, island arcs, spreading ridges, and seamounts
Mark Cloos

738–748 Origin of pegmatitic segregation veins within flood basalts
John H. Puffer and Dawn L. Horter

749–765 Emplacement and deformation history of the western margin of the Idaho batholith near McCall, Idaho: Influence of a major terrane boundary
Cathryn A. Manduca, Mel A. Kuntz, and Leon T. Silver

766–778 Deposition of Franciscan Complex cherts along the paleoequator and accretion to the American margin at tropical paleolatitudes
Jonathan T. Hagstrum and Benita L. Murchey

779–790 Geochemistry of post-uplift calcite in the Permian Basin of Texas and New Mexico
W. D. Wiggins, P. M. Harris, and R. C. Burruss

791–806 The Mount Evans batholith in the Colorado Front Range: Revision of its age and reinterpretation of its structure
John N. Aleinikoff, John C. Reed, Jr., and Ed DeWitt

807–818 Orbital forcing of calcilutite-marl cycles in southeast Spain and an estimate for the duration of the Berriasian stage
Antoinette Sprenger and Warner G. Ten Kate

819–833 $^{40}Ar/^{39}Ar$ thermochronology and Alleghanian development of the southernmost Appalachian Piedmont, Alabama and southwest Georgia
M. G. Steltenpohl and M. J. Kunk

834–838 Evidence of flexural shear folding associated with extensional faults: Discussion and reply
Discussion: *Charles A. Ferguson*
Reply: *W. G. Higgs, G. D. Williams, and C. M. Powell*

839–844 Kinematic analysis of the San Juan thrust system, Washington: Discussion and reply
Discussion: *Mark T. Brandon, Darrel S. Cowan, and Jeffrey G. Feehan*
Reply: *H. Maekawa and E. H. Brown*

845–849 From oceanic closure to continental collision: A synthesis of the "Schistes lustrés" metamorphic complex of the Western Alps: Alternative interpretation and reply
Alternative interpretation: *Marcel Lemoine and Pierre Tricart*
Reply: *Yves Lagabrielle, Eric Deville, Serge Fudral, Michel Marthaler, and Mario Sartori*

850–852 Bulletin Information

JULY

853–871 Late Cenozoic structure and correlations to seismicity along the Olympic-Wallowa Lineament, northwest United States
Gary M. Mann and Charles E. Meyer

872–882 Neodymium isotopic evidence for decreasing crustal contributions to Cenozoic ignimbrites of the western United States: Implications for the thermal evolution of the Cordilleran crust
Frank V. Perry, Donald J. DePaolo, and W. Scott Baldridge

883–896 Sequence stratigraphy of an intrashelf basin carbonate ramp to rimmed platform transition: Maryville Limestone (Middle Cambrian), southern Appalachians
Krishnan Srinivasan and Kenneth R. Walker

897–910 Geochemistry of Upper Cambrian–Lower Ordovician black shale along a northeastern Appalachian transect
Les R. Fyffe and Ron K. Pickerill

911–922 Deposition and diagenesis of Clinton ironstones (Silurian) in the Appalachian Foreland Basin of Pennsylvania
Edward Cotter and John E. Link

923–934 The timing of the last deglaciation in Cordillera Oriental, northern Peru, based on glacial geology and lake sedimentology
Donald T. Rodbell

935–952 Tertiary magmatism and mylonitization in the Ruby–East Humboldt metamorphic core complex, northeastern Nevada: U-Pb geochronology and Sr, Nd, and Pb isotope geochemistry
James E. Wright and Arthur W. Snoke

953–967 A late Pliocene to middle Pleistocene pluvial lake in Fish Lake Valley, Nevada and California
Marith C. Reheis, Janet L. Slate, Andrei M. Sarna-Wojcicki, and Charles E. Meyer

968–978 Fluid-inclusion studies of regionally extensive epigenetic dolomites, Bonneterre Dolomite (Cambrian), southeast Missouri: Evidence of multiple fluids during dolomitization and lead-zinc mineralization: Alternative interpretation and reply
Alternative interpretation: *D. L. Leach and E. L. Rowan*
Reply: *Kevin L. Shelton, Rita M. Bauer, and Jay M. Gregg*

AUGUST

979–997 Gradual mass extinction, species survivorship, and long-term environmental changes across the Cretaceous-Tertiary boundary in high latitudes
G. Keller, E. Barrera, B. Schmitz, and E. Mattson

998–1007 Architecture of the Sierra Ladrones Formation, central New Mexico: Depositional controls on the permeability correlation structure
J. Matthew Davis, Ruth C. Lohmann, Fred M. Phillips, John L. Wilson, and David W. Love

1008–1018 Relict colluvial boulder deposits as paleoclimatic indicators in the Yucca Mountain region, southern Nevada
John W. Whitney and Charles D. Harrington

1019–1052 Aspects of three-dimensional strain at the margin of the extensional orogen, Virgin River depression area, Nevada, Utah, and Arizona
R. E. Anderson and Theodore P. Barnhard

1053–1075 Structural and fluid evolution of a young accretionary complex: The Hoh rock assemblage of the western Olympic Peninsula, Washington
Daniel L. Orange, Duncan S. Geddes, and J. Casey Moore

1076–1090 Ramp-flat detachment faulting and low-angle normal reactivation of the Tule Springs thrust, southern Nevada
Gary J. Axen

1091–1108 Structural and thermal constraints on the initiation angle of detachment faulting in the southern Basin and Range: The Chemehuevi Mountains case study
Barbara E. John and David A. Foster

1109–1118 Quantified Middle Jurassic to Paleocene eustatic variations based on Russian Platform stratigraphy: Stage level resolution
Dork Sahagian and Michelle Jones

1119–1134 Marine to nonmarine facies transition in Permian evaporites of the Palo Duro Basin, Texas: Geochemical response
Susan D. Hovorka, L. Paul Knauth, R. Stephen Fisher, and Guoqiu Gao

1135–1136 Stratigraphic regulation and guidance: A critique of current tendencies in stratigraphic codes and guides: Discussion
R. M. Easton, L. E. Edwards, R. R. Jordan, and D. E. Owen

SEPTEMBER

1137–1150 Extensional reactivation of thrust faults accompanied by coseismic surface rupture, southwestern Wyoming and north-central Utah
Michael W. West

1151–1164 Late Quaternary deglaciation of the southwestern St. Lawrence Lowland, New York and Ontario
Donald L. Pair and Cyril G. Rodrigues

1165–1174 Displacement history of the Atacama fault system 25°00′S–27°00′S, northern Chile
M. Brown, F. Diáz, and J. Grocott

1175–1189 Oceanographic and physiographic controls on modern sedimentation within Antarctic fjords
Eugene W. Domack and Scott Ishman

1190–1213 Paleogeographic reconstruction of the Death Valley extended region: Evidence from Miocene large rock-avalanche deposits in the Amargosa Chaos Basin, California
David J. Topping

1214–1222 Compositional characterization of volcanic products from a primarily sedimentary record: The Oligocene Espinaso Formation, north-central New Mexico
Daniel W. Erskine and Gary A. Smith

1223–1230 Age of Jurassic volcanism and tectonism, southern Owens Valley region, east-central California
George C. Dunne and J. Douglas Walker

1231–1246 Correlation of Jurassic eolian strata between the magmatic arc and the Colorado Plateau: New U-Pb geochronologic data from southern Arizona
Nancy R. Riggs, James M. Mattinson, and Cathy J. Busby

1247–1259 Upper-crustal structure beneath the Columbia River Basalt Group, Washington: Gravity interpretation controlled by borehole and seismic studies
R. W. Saltus

1260–1262 Magnetostratigraphy and paleomagnetic poles from Late Triassic–earliest Jurassic strata of the Newark basin: Discussion and reply
Discussion: *Spencer G. Lucas, Maureen B. Steiner, Phillip Huber, and Adrian P. Hunt*
Reply: *William K. Witte, Dennis V. Kent, and Paul E. Olsen*

OCTOBER

1263–1283 Upper Devonian buildup-margin and slope development in the southern Canadian Rocky Mountains
David J. McLean and Eric W. Mountjoy

1284–1296 Stable isotopes in Late Pennsylvanian brachiopods from the United States: Implications for Carboniferous paleoceanography
Ethan L. Grossman, Horng-Sheng Mii, and Thomas E. Yancey

1297–1309 Geometry of a Miocene submarine canyon and associated sedimentary facies in southeastern Calabria, southern Italy
William Cavazza and Peter G. DeCelles

1310–1320 Tilting, burial, and uplift of the Guadalupe Igneous Complex, Sierra Nevada, California
Peter J. Haeussler and Scott R. Paterson

1321–1345 Depositional history of the western Colombian Basin, Caribbean Sea, revealed by seismic stratigraphy
Christopher L. Bowland

1346–1356 Dips and extension
Ivo Lucchitta and Neil H. Suneson

1357–1372 A new angle on the tectonic evolution of the Ridge basin, a "strike-slip" basin in southern California
Steven R. May, Kenneth D. Ehman, Gary G. Gray, and John C. Crowell

1373–1387 Tilt and rotation of the footwall of a major normal fault system: Paleomagnetism of the Black Mountains, Death Valley extended terrane, California
Daniel K. Holm, John W. Geissman, and Brian Wernicke

1388 Bulletin Information

NOVEMBER

1389–1399 Alteration of early-formed dolomite during shallow to deep burial: Mississippian Mission Canyon Formation, central to southwestern Montana
Tad M. Smith and Steven L. Dorobek

1400–1414 Detrital record of the Gravina arc, southeastern Alaska: Petrology and provenance of Seymour Canal Formation sandstones
Harvey A. Cohen and Neil Lundberg

1415–1434 Late Cenozoic tectonic evolution of the Los Angeles basin and inner California borderland: A model for core complex–like crustal extension
James K. Crouch and John Suppe

1435–1444 Nature and timing of faulting and synextensional magmatism in the southern Basin and Range, central-eastern Durango, Mexico
Gerardo J. Aguirre-Díaz and Fred W. McDowell

1445–1461 Polygenesis of a Pleistocene paleosol in southern Iowa
K. Woida and M. L. Thompson

1462–1477 Extensional tectonics, Cretaceous Andes, northern Chile (27°S)
Constantino Mpodozis and Richard W. Allmendinger

1478–1490 Contrasting thermal histories across the Flying Point fault, southwestern Maine: Evidence for Mesozoic displacement
David P. West, Jr., Daniel R. Lux, and Arthur M. Hussey, II

1491–1510 Estimation of paleostress orientation within deformation zones between two mobile plates
Ruud Weijermars

1511–1514 The Newport fault: Eocene listric normal faulting, mylonitization, and crustal extension in northeastern Washington and northwestern Idaho: Discussion and reply
Discussion: *R. Ernest Anderson*
Reply: *Tekla A. Harms and Raymond A. Price*

DECEMBER

1515 Jean Thyfault Retires

1516 Comment

1517–1541 Emplacement-related deformation of granitoid magmas, southern Adamello Massif, Italy
Barbara E. John and Jonathan D. Blundy

1542–1560 Timing of late Cenozoic tidewater glaciation in the far North Pacific
Martin B. Lagoe, Carolyn H. Eyles, Nicholas Eyles, and Christopher Hale

1561–1575 The role of the mantle during crustal extension: Constraints from geochemistry of volcanic rocks in the Lake Mead area, Nevada and Arizona
Dan L. Feuerbach, Eugene I. Smith, J. D. Walker, and J. A. Tangeman

1576–1590 The interactions of sea-level change, terrigenous-sediment influx, and carbonate productivity as controls on Upper Cambrian Grand Cycles of western Newfoundland, Canada
Clinton A. Cowan and Noel P. James

1591–1605 Orogenic evolution of the New England Appalachians of southwestern Connecticut
J. H. Sevigny and G. N. Hanson

1606–1616 $^{230}Th/^{234}U$ and ^{36}Cl dating of evaporite deposits from the western Qaidam Basin, China: Implications for glacial-period dust export from Central Asia
Fred M. Phillips, Marek G. Zreda, Teh-Lung Ku, Shangde Luo, Qi Huang, David Elmore, Peter W. Kubik, and Pankaj Sharma

1617–1634 Stratigraphy, petrography, and correlation of late Cenozoic middle Atlantic Coastal Plain deposits: Implications for late-stage passive-margin geologic evolution
Frank J. Pazzaglia

1635–1637 Classification of paleosols: Discussion and reply
Discussion: *Gregory J. Retallack*
Reply: *W. Calvin James, Greg H. Mack, and H. Curtis Monger*

1638–1640 Sequence stratigraphy of a carbonate-clastic ramp: The Cincinnatian Series (Upper Ordovician) in its type area: Discussion and reply
Discussion: *John C. Hohman, Karl W. Leonard*
Reply: *Steven M. Holland*

1642–1671 1993 Indexes
